

Montezuma

Electronic Press Kit 2026

Organic Fiesta Groove from Berlin – saxophone, flute, guitars and bongos meet electronic productions at 138–145 BPM.

Montezuma are four friends from Dresden, now based in Berlin, merging hypnotic, high-energy grooves at 138–145 BPM with saxophone, flute, guitars and live percussion. They call it Organic Fiesta Groove: born in organic downtempo and deeply inspired by Latin American and Brazilian music, their sets travel from mystical to euphoric, with instruments trading solos over the beat. Four of their tracks have passed a million streams each.

Press & support

"With a lot of heart and passion, Montezuma always create a special vibe. Their latest single 'Caravan' is best described as 'organic techno' – 144 bpm meet bongos and saxophone."

FAZEmag (translated from German)

"The track lives from its beat, warm saxophone and a mood that instantly makes you want to go to a festival."

BANDUP on "Giro al Sol" (translated from German)

- **Bad Boombox** released "Puxa Vida!" and "El Sabor" on his label Hot Meal Records, plays our tracks in front of thousands and supported us on Studio Brussel (VRT, Belgium).
- **Anetha** features "El Sabor" and "Bosque Delantero" in her Spotify Track IDs.
- One-hour feature interview on **ALEX Berlin** (2024).

Live formats

Hybrid Live Set *standard*

60–150 min

Runs on a standard club DJ setup plus our own compact instrument mixer. Our own tracks are prepared without their instrument parts, leaving space for saxophone, flute, guitars and bongos played live – on almost every track of the set, including selected tracks by other artists.

Extended Journey Set

3+ hours

Starting from our organic downtempo roots at 120–130 BPM and building into our hypnotic, high-energy 138–145 BPM sound. First performed at Fusion 2025.

Full Live Set *in development*

planned for 2027/28

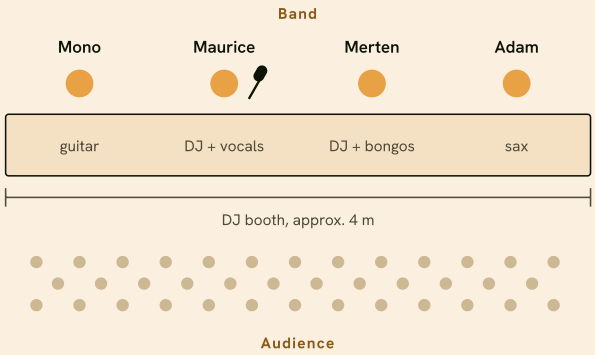

A set built entirely from Montezuma originals, performed fully live.

All formats can be extended with guest musicians, such as additional percussionists or vocalists.

Tech essentials

- 2+ Pioneer CDJ-3000 or CDJ-2000NXS2 (linked)
- Pioneer DJM or Allen & Heath Xone mixer
- XLR connection to our digital instrument mixer (X32 Rack, provided by us)
- 2 monitors left and right of the booth
- DJ table 90–110 cm high, approx. 4 m wide in total
- Soundcheck with a sound engineer
- We bring microphones, cables and our instrument mixer

Four musicians on stage. All instruments fly as regular luggage, and the set runs on a standard club DJ setup. Full rider: epk.example.de/downloads/montezuma-tech-rider.pdf
